INTRODUCTION

This book contains the marriages performed at St.Andre's Church in Biddeford,Maine. Each entry gives the names of the spouses and of their parents and the date of the wedding. I have added the date of baptism and the name of the Church and of the city when they came from big city where there are many catholic Churches or just the name of the city when the city has just one church. Also I have added, when it was the case that the spouses were not of Biddeford itself, the name of the city where they were living at the time of the wedding.

So this book shows us where the spouses were from at birth and where they were married and where they were living at the time of the wedding.

The marriages found in the above books besides having the name of the spouses and of their parents and the date of the wedding,often the date and place of baptism of the spouses are also in and also the name of the city if one or two of the spouses come from a city different from where they were married. So we know where they were living at birth and at the time of the wedding.
